To All Advertising Agencies & Clients

Dear Partners,

We're excited to share some big news: **M&A Solidere network** has just received a major upgrade!

Since taking over these prime locations, we've completely redesigned our panels with fresh, modern aesthetics and game-changing proprietary customization features to make your campaigns truly shine.

We have framed the lightboxes with LED border to elevate your brand and enhance its value.

- **Custom LED Lighting:** Match the panel's glow to your brand colors, adjust brightness, or set the perfect night mood.
- **Full Structure Branding:** Brand beyond the visual—wrap the frame, add logos, or introduce special 3D touches.
- **Peak Solidere Impact:** Maximum foot and car traffic in the heart of the city, looking sharp 24/7.

Take a look at the newly upgraded panels below—we can't wait to collaborate and bring your boldest ideas to life here!
